DETAILED ACTION

Election/Restrictions

Claim Objections

1. Claims 1-79 are objected to because of the following informalities: The claims are replete with the phrase “adapted to sequentially”, which is not a positive. Appropriate correction is required.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1-19, drawn to a control device of a legged mobile robot..., classified in class 700, subclass 245.
 - II. Claims 20-79, drawn to a control device that generates a desired gait of a legged mobile robot..., classified in class 318, subclass 568.1.
3. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the details of the subcombination as separately claimed are not set forth in the combination. The subcombination has separate utility such as a control device of a legged mobile robot...

Art Unit: 3664

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. A telephone call was made to Mr. David E. Spaw Reg., 34,732 on Friday, July 3, 2009 to request an oral election to the above restriction requirement; however Mr. David E. Spaw was not able to elect without his client consent.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to MCDIEUNEL MARC whose telephone number is (571)272-6964. The examiner can normally be reached on 6:30-5:00 Mon-Thu.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Khoi Tran can be reached on (571) 272-6919. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
